04

Future Work

04

Future Work

- Create a authorization and authentication system.
- Add error correction tracking.
- Continue developing W3c data workflow
- Develop System analytics
- Integrate System analytics with W3C

05

Calendar

Week

Steps	9	10	11	12	13	14	15	16	17
Origin graph development									
Dynamic Outlier detection									
W3C tables Analyses									
Case study 2									
Admin Metrics									
User authorization									
ETL pipeline									
Deployment									
Final Report
